- [Dorsett Atari Mathematics \(Geometry\) MG](#)

This is an archive of the "Geometry" educational program published by Dorsett Educational Systems, Inc. in 1983. This was originally packaged as a set of 8 cassette tapes for use with Atari 400 and 800 computers and the Educational System Master Cartridge.

The "raw recordings" directory contains the unaltered recordings from cassette, one file per tape, with both sides of each tape in the same file. You probably don't want to use this folder.

The main files (mg1 through mg16) are likely the versions you want to use with your Atari or emulator. These have been split into 16 files (one per tape side). The audio levels have had their volume normalized, as well as any pops and clicks removed, and subsequently repaired on the data tracks. Each tape has been verified to work on the Altirra emulator.

Finally, photos of the cassette tapes are included.

The work of digitization and audio cleanup was done by Kay Savetz and Thomas Cherryhomes in June 2015.

Album: Mathematics (Geometry)

Year: 1983

Original Format: Atari Educational System (Dorsett Talk & Teach)

Digital Format: Microsoft WAV, 2 channel, 16-bit 44100Hz sample rate

Digitized by: Kay Savetz/Thomas Cherryhomes

Tracks:

mg1 Equilateral, isosocles, right triangles

mg2 Formula for the Perimeter of triangles

mg3 Finding One Side of a Right Triangle

mg4 Side of an Equilateral Triangle

mg5 Area of Triangles

mg6 Square of Small Numbers, Roots

mg7 Pythagorean Theorem

mg8 3-4-5 and 5-12-13 Right Triangles

mg9 Estimating Square Roots

mg10 Perimeter of Rectangles and Squares

mg11 Finding One Side of a Rectangle

mg12 Area of Rectangles and Squares

mg13 Length, Width, Area of Rectangles

mg14 Diagonals, Interior Angles, Rectangles

mg15 Radius and Diameter of Circles

mg16 Volume of Cylinders and Prisms

Tracks (size in sum: 765.4 MB):
